

Nguyen Minh Kiet

- **Birthday:** 10/09/1998
- **Address:** Ho Chi Minh, Viet Nam

■ BRIEF INTRODUCTION

Hi, I'm a Software Engineer who loves simplicity, neatness and uniqueness.

I started learning programming when I was 20 years old and it only took me six months to write my first application using my programming skills. Since then, I became a website programmer with nearly 3 years of experience, working as a front-end dev for 2 companies, along with a few personal projects.

Thanks to that, I have experience in front-end and back-end.

In recent years, I have been very focused on programming and website development. Now I am very confident that my abilities can meet the requirements of the business.

■ WORK EXPERIENCE

■ VAS Group - VAS Nghi Son, Viet Nam, 04/2023 - now

Established in 1998, VAS is now a system of billet and steel rolling mills with a total capacity of about 4.350.000 tons square billet and 2.500.000 tons of Rebar & Wire rod.

I hold the position of Software Engineer developing internal applications for the company and maintaining deployed software.

I built the UI and logic for the *Vehicle Manage* project (a website used to monitor the time vehicles enter and leave the factory in Thanh Hoa).

Maintain and develop *Vehicle Weighing Software* for all the company's factories.

At the Da Nang factory, I have successfully implemented the *eDelivery* project (a website used to register supplier delivery information).

In addition, I also develop a few other projects for the company internally.

We use technology: ReactJS, NodeJS, C# .NET, MSSQL Server, MongoDB,...

■ **Cuong Khang Informatics**, Việt Nam, 06/2021 - 03/2023

Cuong Khang Informatics is a software technology company in Vietnam. Established in 2008 and run by a team of software engineers and marketing experts who understand the market.

I hold the position of Software Engineer at the company. Programming and developing applications according to customer requirements.

Maintain and operate the Warranty Repair System deployed to partners such as: Phong Vu, Điện Thoai Vui, LaptopOne, Vietfirst, Hai Trieu clock, Alaska, ShopDunk,...

We use technology: C# .NET, MSSQL Server, ADO.NET, WebService, HTML, CSS, JavaScript, JQuery,...

■ **SKILLS**

■ **Programming languages**

JavaScript, TypeScript, C# .Net

(I'm quite confident that I can catch up with other languages when needed very fast)

■ **Front-end Technologies**

- ReactJS: Hook, Redux, Formik, React Hook Form, Yup, React Query, Axios,...
- NextJS (TypeScript)
- HTML, CSS, Responsive, SASS (7-1 pattern)
- Semantic, SEO
- Bootstrap, Material UI, TailwindCss, AG-Grid, Telerik UI

■ **Back-end Technologies**

- Protocols: REST, HTTP(S)
- Frameworks/Libraries: Node.js, Express.js, ASP.NET Core
- OOP, Web socket SignalR
- Database: MongoDB, MSSQL Server (Store Procedure, Function, Trigger,...)

(I haven't used ASP.NET Core for a while)

■ Dev Tools

Git, Github, Gitlab, Postman, React Developer Tool, Redux Dev Tool, Figma, VS Code

■ Other skills

Teamwork, present, SEO.

■ PERSONAL PROJECTS

■ Portfolio

This is my personal website to introduce myself, designed and developed by myself.

Technology used: ReactJS, SASS (7-1 pattern), Responsive

Website: <https://kietnm.com>

■ Landing page & Ecommerce

These are websites about introducing products, brands,... And e-commerce. All of them are cloned by me from sample designs on the internet.

Technology used: HTML, CSS, JS, SASS (7-1 pattern), Responsive, Semantic

Website:

- Ecommerce GroceryMart: <https://nmkiet.io.vn>
- CeloBank: <https://kietnm-landing-celobank.vercel.app>
- Besnik: <https://kietnm-landing-besnik.vercel.app>
- Dental Care: <https://kietnm-landing-dental-care.vercel.app>
- Lesson: <https://kietnm-landing-lesson.vercel.app>

■ CRUD

These are websites that demo the basic functions of software applications such as: create, update, delete. And validation form with Formik.

Technology used: ReactJS, NextJS, NodeJS, Vercel Postgres, Formik, Yup

Website:

- CRUD với ReactJS: <https://kietnm-reactjs.vercel.app>
- CRUD với NextJS: <https://kietnm-nextjs.vercel.app>
- Formik với Yup: <https://kietnm-formik-yup.vercel.app>

■ EDUCATION

Software Engineering

HUIT - HO CHI MINH CITY UNIVERSITY OF INDUSTRY AND TRADE

- School year: 2016 - 2020
- Major: Software Technology
- Level: Good

■ LANGUAGES

- **English**
Read and understand specialized documents.
- **Vietnamese**
Native speaker.

■ CONTACT INFORMATION

-  Phone: 0909 144 706
